

# Veterinary Anatomical Pathologist

## Permanent Full-Time

**Location: Adelaide, SA, Australia.**

Gribbles Veterinary Pathology is a trading entity of Australian Clinical Labs, and it is one of Australia's leading Veterinary Pathology providers, with two dedicated veterinary laboratories within Australia. Each laboratory provides diagnostic pathology services for livestock, companion animal, university and research veterinarians, as well zoo and wildlife organisations.

### The Opportunity

Australian Clinical Labs is seeking an enthusiastic and forward-thinking Veterinary Anatomical Pathologist to join our Glenside laboratory. This is a fantastic opportunity to work in a highly collaborative environment that supports the diagnostic needs of both small and large animal veterinarians across South Australia, while also providing key pathology services to Primary Industries South Australia (PIRSA).

In this role, you will deliver timely, high-quality diagnostic services including post-mortem examinations, cytology, and histopathology across a true mixed-species caseload. You will also play an integral part in advising PIRSA and supporting South Australia's production animal industries.

### Key Responsibilities

- Interpret a broad range of diagnostic results across both anatomical pathology (gross post-mortem, histopathology) and clinical pathology.
- Evaluate and interpret haematology, cytology, biochemistry, endocrinology, urinalysis, serology, microbiology, and molecular diagnostics.
- Perform post-mortem examinations on small and large animals.
- Oversee tissue processing and preparation for laboratory testing.
- Contribute to PIRSA's disease surveillance and advisory services.
- Provide specialised advice and phone consultations to veterinary clients.
- Offer scientific leadership through mentoring technical staff, supporting audits, and assisting with laboratory information and reporting systems in alignment with NATA accreditation.
- Partner with the Commercial team to understand client needs and support professional marketing and educational activities.
- Work collaboratively with colleagues to achieve laboratory and organisational goals.

### Essential Requirements

- Bachelor of Veterinary Science (BVSc) or equivalent.
- Registration (or eligibility for registration) with the Veterinary Practitioners Board in Australia.
- Pathology qualification by examination (ACVP, ECVP, MANZCVS) or equivalent diagnostic pathology experience in production animals.
- Postgraduate qualification in veterinary pathology or a related discipline (preferred).
- Experience in clinical veterinary pathology (desirable).
- Demonstrated commitment to delivering high-quality pathology services.

## Why join us?

As part of Australian Clinical Labs, we pride ourselves on clinical excellence, a strong patient focus, and a culture built on respect, integrity, and continuous improvement. Our culture is agile and willing to change, and we always act with the highest respect and integrity. You'll join a supportive professional environment that values ongoing development, offering opportunities for continuing professional education and participation in client education seminars

Salary will be commensurate with your experience and qualifications.

## Who We Are

Gribbles Veterinary Pathology is a division of Australian Clinical Labs. Australian Clinical Labs is committed to empowering our people, improving patient outcomes, and maintaining the highest standards in both veterinary and medical diagnostics. Our employees are passionate about what they do and thrive in a safe, inclusive, and collaborative environment.

We are an equal opportunity employer and encourage applications from people of all ages, cultures, nationalities, abilities, and identities including Aboriginal and Torres Strait Islander peoples, LGBTQI+ communities, and people living with disabilities. We are also happy to adjust our recruitment process to support accessibility needs.

## Vaccination Requirements

As a healthcare provider, Clinical Labs requires all new employees to be vaccinated against preventable diseases. If successful, we will ask for proof of immunisation accordingly for our records.

You may be required to undergo probity checks as part of the recruitment process including police check and license check.

If you are interested in taking on this exciting challenge, please forward your CV and a covering letter by email to [attracta.roach@gribbles.com.au](mailto:attracta.roach@gribbles.com.au) Commercial Leader – Gribbles Veterinary Pathology.
