

Veterinary Pathologist Position, Focus “Tumour Pathology”

We are seeking a veterinary pathologist to advance our focus “tumour pathology“ in both diagnostics and research.

The post holder has the following tasks:

- Contribution to the diagnostic biopsy and cytology services
- Advancement of tumour diagnostics (immunohistology, molecular biology, morphometry, advanced image analysis)
- Research within the focus “tumour pathology” (interdisciplinary patient-based applied clinical research; interdisciplinary basic research within the scope of the Laboratory for Animal Model Pathology, LAMP)
- Advancement of image analysis (deep learning, stereology)
- Contribution to undergraduate teaching and postgraduate training (residents)

The successful applicant fulfils the following requirements:

- EU-recognised veterinary degree
- Completed dissertation (Dr. med. vet. and/or PhD) preferable
- International qualification as veterinary pathologist (DipIECVP/DipACVP) preferable
- Experience in tumour diagnostics (biopsies, preferably also cytologies) incl. the application of further immunohistological and molecular biological approaches
- Profound interest in digital pathology (image analysis; morphometry, application of artificial intelligence)
- Interest in an academic career, working within a team, professional challenges and to accept responsibility; flexibility, ingenuity and team skills
- Good German skills (spoken and written)

We offer:

- Diagnostic work as part of a highly competent team
- Opportunity to develop one’s own research track in the area of tumour pathology
- Interdisciplinary research environment with abundant options for collaborations in the clinical and basic research projects
- Widely used digital pathology facility with options for further development
- Salary according to cantonal rules, options for further qualifications and continuous professional development, family friendly work environment

For further information, please contact Prof. Dr. Anja Kipar (email: anja.kipar@uzh.ch).

This position offers options for candidates with a variable profile, ranging from a postdoc after completion of a residency to an experienced diagnostic pathologist with an interest in taking up research and teaching (again). Also, the focus of the position can be adjusted to personal interests.

Please submit your written application with your CV and letter of motivation by 31.03.2023 to:

Institute of Veterinary Pathology, Personnel Administration
Vetsuisse Faculty, University of Zurich
Winterthurerstr. 268
8057 Zurich
Switzerland
