

THE UNIVERSITY *of* EDINBURGH

The Royal (Dick) School of Veterinary Studies

Lecturer/Senior Lecturer in Veterinary Anatomic Pathology *UE08 / UE09*

The Royal (Dick) School of Veterinary Studies, University of Edinburgh, wishes to appoint a full-time Lecturer or Senior Lecturer in Veterinary Clinical Pathology. This position is an exciting opportunity to join a vibrant and international team and to contribute to the further development of the diagnostic pathology service, teaching of pathology, and the School's research programme.

This Lecturer position at the RDSVS offers ([reward calculator](#); [staff benefits](#)):

- 8 working weeks paid holiday per year and [family friendly initiatives](#) (including up to 1 year maternity leave)
- Regular 9 – 5 schedule (including 1h break/day – 35h week) with possibility for hybrid work when not on duty and diverse daily work
- Opportunities for professional development around your interests (e.g. research, teaching, new techniques, digital pathology, recruitment)
- Generous Universities Superannuation Scheme (USS) [pension scheme](#); where the university contributes 21.6% to the pension pot additional to the employee's contribution.
- Work at our rural campus at the foot of the Pentland Hills, 7 miles from Edinburgh, the UK's best city to live in, and enjoy access to Edinburgh University facilities, services and clubs
- Starting salary £42,149 - £50,296 (UoE Grade 8) and £53,348 – 60,022 (UoE Grade 9), with encouragement for progression
- Support from specialist clinicians and access to world class facilities

Covering all aspects of anatomic pathology, the successful candidate will play an important role in the work of Easter Bush Pathology, the Roslin Institute, and the wider Centre for Comparative Pathology, in the delivery and assessment of the BVM&S undergraduate teaching programme and in enhancing

eLearning and on-line teaching initiatives. You will make a significant contribution to research in this field, develop strong collaborative research links both within and outside the School and make a significant contribution to postgraduate education.

You will be based in the new Veterinary School building, opened in 2011 in the Easter Bush Campus, ideally located at the foot of the gorgeous Pentland hills. Interaction with colleagues across the range of disciplines will offer you the stimulation and support required to further develop your interests and career ambitions.

You will hold a veterinary degree and will be an MRCVS (or eligible to become an MRCVS). You will be qualified in veterinary anatomic pathology to diploma level (e.g. DipECVP, DipACVP or FRCPath), although Board-eligible candidates are also encouraged to apply. Practical experience in the delivery of a diagnostic anatomic pathology service is essential. Experience in teaching and research are strongly desirable.

Informal enquiries are welcomed and should be directed to:

- Dr Jorge del-Pozo, Head of Easter Bush Pathology, Jorge.Del.Pozo@ed.ac.uk
