

March 2022

Dear Colleagues,

The ECVP/ESVP Education Committee is organising the Summer School 2022 which will take place in Zagreb, Croatia, from **Monday 11<sup>th</sup> July to Friday 22<sup>nd</sup> July 2022**.

As the pandemic situation is stabilising, we will be hosting the Summer School as an onsite event only.

All participants of the Summer School will be asked to provide a valid EU COVID certificate (Green pass) or recognized equivalent document (digital and print format will be accepted). In addition, local rules will apply. The pandemic situation will be monitored and we will communicate an update before the event.

**Zagreb** is a distinctly central European city situated in the middle of the triangle of Vienna, Budapest, and Venice. It has always been and remains a part of the cultural circle of central Europe. Zagreb is a city with a tradition of almost one thousand years. Zagreb University was founded in the 17th century. As the capital of Croatia, Zagreb lives a rich cultural life, with more than 20 theatres, 3 concert halls, around 60 museums, and art galleries. It is a big center of congress tourism, economic and business events, and trade fairs not only in Croatia but also in this part of Europe. We could summarize the impressions of the growing number of foreigners who visit Zagreb in one sentence: a city of a million inhabitants that has managed to stay romantic, clean, and which offers visitors pleasant walks and enjoyment in a city full of parks and pedestrian zones.

### **Faculty of Veterinary Medicine University of Zagreb (VEF)**

The Faculty was founded in 1919 as the School of Veterinary Medicine in Zagreb, at the beginning twelve departments were opened and the study lasted eight semesters. The School of Veterinary Medicine was renamed to the Faculty of Veterinary Medicine on 7th December 1924 and became a constituent part of the University of Zagreb. In the last 100 years the Faculty was, and still is, the only higher education institution in the field of veterinary medicine that ensures the formation of highly skilled veterinary professionals in Croatia. The faculty consists of 15 buildings with large green areas in between.

## **Travel to the University (Faculty of Veterinary Medicine)**

Zagreb has an international airport Franjo Tuđman which offers direct flights to Europe's main airports. The transport from the Airport to the city is possible by [Airport Shuttle](#) (The scheduled airport shuttle "Pleso prijevoz Timetable" is operating between the Airport and the Zagreb Central Bus Terminal), by [Taxi / Rent-a-car](#), by [ZET Bus](#) (ZET Line 290 (Zagreb Electric Tram) is operating between the Airport and the Zagreb Kvaternik Square (direction Kvaternikov trg). Departures are scheduled every 35 minutes (information is available at: <http://www.zagreb-airport.hr/en/passengers/to-from-the-airport/35>). In the city, transport is organized by ZET trams and buses.
