Advancing Education in Veterinary Pathology

UNIVERSITY OF  
SURREY

## **BSVP Annual Meeting 2018**

### **Applied ruminant pathology**

### **Disease investigation, diagnosis and surveillance**

**Friday 28th and Saturday 29th September 2018**

**School of Veterinary Medicine, University of Surrey**

Designed for all vets and veterinary pathologists engaged in the investigation of farm animal disease, this conference will address typical clinical history, key gross findings, post-mortem sampling technique and interpretation to aid in the diagnosis and surveillance of disease in farmed ruminants. Also includes in-depth focus lectures on selected key diseases. Registration opens in March 2018. For more details see:

<http://www.bsvp.org>

#### **Meeting includes:**

**Focus lectures by Paco Uzal, Joe Cassidy and others**

**Trainee session led by 2 ACVP committee members**

**Panel discussion on the future of UK farm animal disease surveillance**
