ASVP 2019 SCIENTIFIC CONFERENCE

Neuropathology: It's A No Brainer!

DATE: 13-15 SEPTEMBER, 2019

VENUE: Mercure Hotel
10 Irwin Street
Perth, Western Australia

Dr Jennifer Koehler [Jey]
DVM, PhD, DACVP

Registrations are now open for our 2019 deep dive into veterinary neuropathology.

Our keynote speaker, Dr Jennifer Koehler is section chief of surgical pathology at Auburn University, USA and a member of the CL Davis-Thompson Foundation's Faculty of Discussants. Her research focuses on neurodegenerative diseases and canine brain tumours, and she is a founding member of the NIH-led Comparative Brain Tumor Consortium.

The conference program will feature clinical neurology correlates with diagnostic approaches to neurologic patients, as well as presentations from MD neuropathologists, and we anticipate significant interest from colleagues in clinical veterinary disciplines.

Visit our conference website for further information on our invited speakers, program, conference details and registration:
