Annual seminar of the French Society of Veterinary Pathology

Current perspectives concerning soft tissue tumors

12th- 14th May 2022

Virtual or hybrid (Maisons-Alfort, EnvA)

Guest speakers

Rob Foster (University of Guelph, Canada)

Melanie Dobromylskyj (Finn Pathologists, Harleston, UK)

Objectives

We are very pleased to have Dr. Rob Foster (University of Guelph, Canada) and Dr. Melanie Dobromylskyj (Finn Pathologists, Harleston, UK) as well as Dr. Benoit Riedinger, surgeon and Dr. Franck Floch, oncologist (AniCura TRIOVet, Rennes, France) as invited experts this year for our annual seminar. The seminar will be dedicated to the current perspectives concerning soft tissue tumors.

This two and a half-days' workshop will allow participants to discuss a variety of cases of soft tissue tumors pathology with the speakers and share their experience. Participants will enjoy case discussion through digital microscopy, as well as lectures.

All attendees are kindly requested to provide soft tissue tumors pathology cases from their own daily practice in canine, feline (or equine) histopathology. The submitted cases should include complete clinical history, gross pictures if available and stained histological slides. Digitalized sections will be used during the seminar.

The deadline for case submission is **15th March 2022**. Additional information is under "*Case submission information*" section below.

Program

Thursday 12th May 2022

18:00-18:30	Connexion & welcome
18:30-20:00	Lecture: General considerations and challenges of STT diagnosis (Rob Foster - University of Guelph, Canada)

16:00-17:00	Lecture: Joint and Synovial Tumors (Rob Foster - University of Guelph, Canada)
17:00-18:30	Case discussion – <i>virtual</i>

Registration

Online registration will be open from **1st March**.

Registration fees

SFAPV Member	175€
Non Member	210€
Resident #	Free

#A certificate of residency or scholarship is required from residents.

Exceptionally, registration fees are not required for the French DESV-AP students and anatomic pathology residents from other countries *upon presentation of a certificate*.

Lectures and case discussions by Dr. Melanie Dobromylskyj and Dr. Rob Foster will be recorded and available **for 3 months** for all participants, but only attendees to the live version can participate in real time discussions and ask questions.

Lectures and case discussions on Friday morning will NOT be recorded - better catch it LIVE! If you were planning to catch the rebroadcast of Friday morning's SFAPV seminar, unfortunately, we will be unable to rebroadcast it. So, the live version will be the only way to see this seminar. We regret any inconvenience that this poses.

General information

General information about Zoom is available on the following website:

<https://zoom.us/>

Please make sure you register to our webinar using the same email that you registered for a Zoom account.

If you are having difficulties logging in the webinar, please, follow these steps:

- Sign in your Zoom account using your email and password
- Return to the email you received and click on the link. You'll automatically join the webinar when in session.

For more details regarding registration please see this video tutorial:

<https://www.youtube.com/watch?v=QOUwumKCW7M>

Case submission information

Sections will be digitalized for the seminar. Cases from soft tissue tumors pathology should be provided with:

- Complete clinical history
- Gross pictures if available
- Relevant stained histological slides (one copy)

The deadline for case submission is **15th March 2022**
