

## **Chair in Veterinary and Comparative Pathology and Director of the Centre for Comparative Pathology**

**Salary:** Grade 10 pay scale, commensurate with experience

### **The Royal (Dick) School of Veterinary Studies and The Roslin Institute**

The University intends to establish a Chair in Veterinary and Comparative Pathology, with responsibility as the Director for the Centre for Comparative Pathology, within the internationally renowned Royal (Dick) School of Veterinary Studies and Roslin Institute.

The last decade has seen unprecedented growth in the animal bioscience sector with the Easter Bush Campus now recognized as one of the leading global locations in this regard. With £100 million recently invested in the Royal (Dick) School of Veterinary Studies and the Roslin Institute, it is clear that this growth is set to continue, and great emphasis is being placed on investing in those individuals capable of leading in this stimulating environment.

The discipline of veterinary pathology lies at the heart of our vision for the future with the expectation that excellence in this area will continue to be fundamental to our success in clinical service, teaching and research.

A leader in Veterinary Pathology is now being sought to support the establishment of world-class veterinary and comparative pathology on this campus. Our ambition is to create a Centre of Excellence in Veterinary, Comparative and Experimental Pathology. The successful candidate would also be the director of the Centre for Comparative Pathology and be expected to foster collaborations across the campus including close liaison with the Director of Systems Pathology within the medical school.

Applicants are expected to have a proven track record in Veterinary Pathology. They will be an MRCVS (or MRCVS eligible) with appropriate postgraduate qualifications (European/American board certification, FRCPath or equivalent) and/or a PhD. Applicants with an independent research programme are strongly encouraged to apply.

Informal enquiries are strongly encouraged and can be made to: Professor David Argyle, Dean of Veterinary Medicine, on 0131 650 6241 / [david.argyle@ed.ac.uk](mailto:david.argyle@ed.ac.uk) or Professor David Hume, Director of the Roslin Institute, on 0131 651 9181 / [david.hume@roslin.ed.ac.uk](mailto:david.hume@roslin.ed.ac.uk)

**Ref: 3015526. Closing date: 27 April 2012.**
